

## Avero Supports the Epicurean Charitable Foundation at annual M.E.N.U.S. Event

Posted by Ally Welsh | October 14, 2015

Avero is not only the premiere restaurant software company in the industry - we also make a point to support amazing organizations who foster mentorship to the budding leaders in the food and beverage world.

There is no greater example of that than the Epicurean Charitable Foundation (ECF). ECF is comprised of more than 20 top food and beverage and hospitality executives who are dedicated to enriching the lives of deserving local students passionate about a career in hospitality or culinary arts. Through scholarships and mentorship opportunities, these gifted, but often financially underprivileged, students are provided with the means to pursue their dreams and become future leaders of the Las Vegas hospitality industry.

To support the scholarship program, ECF holds an annual gala that has quickly become one of the most popular events on the Las Vegas social calendar. M.E.N.U.S. (Mentoring and Educating Nevada's Upcoming Students) is hosted by one of the city's world-class resorts and features dining stations offering samples from some of the finest restaurants in town and live entertainment.

Of the 50+ restaurants represented at the event, we are proud to say that the vast majority were Avero clients - Caesars, Mina Group, South Point Casino and more! It makes us happy to know that the progressive restaurateurs who use Avero's software tools also understand the value of such an amazing organization.

Avero is proud to support M.E.N.U.S each year and this year was no exception. The event was held at The Beach at Mandalay Bay Resort & Casino and featured an exclusive poolside dine-around highlighted by the top chefs, restaurants and beverage distributors in the city.

As a leader in restaurant software analytics, it is our pleasure to have participated as a Silver Sponsor and reconnect with our future leaders that we are proud to support year after year.
